

Lecturer in Mathematics

As one of Wellington's largest and most established employers, and the number one university in New Zealand for research quality, Victoria University of Wellington provides opportunities for rewards, recognition and development. The University has a tradition of fostering international links in teaching and research, and delivering programmes of national and international significance through tertiary-leading academic performance and support services. Thinking about a future in a culture where innovation and diversity are highly valued? Think Victoria.

Lecturer in Mathematics

The School of Mathematics and Statistics seeks to appoint an early-career academic in any field of mathematics to join its successful research-active programme.

Candidates should have a PhD in mathematics and a strongly developing research record. Some university-level teaching experience is essential along with a willingness to engage students and encourage active learning.

The appointee will be expected to undertake undergraduate and postgraduate teaching in the School, to develop their research programme in keeping with the School's emphasis on high-quality scholarship and to contribute to the School's external engagement.

For further information on this vacancy please contact: Peter Donelan, Head of School, School of Mathematics and Statistics (peter.donelan@vuw.ac.nz).

Applications close 11 September 2017
